Cure for Piles.
Piles are frequently preceded by a sense of weight in the back, loins and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, as flatulency, uneasiness of the stomach, etc. A moisture, like perspiration, producing a very disagreeable itching after getting warm, is a common attendant. Blind, bleeding and itching piles yield at once to the application of Dr. Rossano's Pile Remedy, which acts directly upon the parts affected, absorbing the tumors, allaying the itching, and inducing the permanent cure. Price 25 cents. Address—Dr. Rossano, Medicine Co., Platts, O. Sold by Geo. T. Wood.

"We denounce and condemn the partial reorganization of the penal and benevolent institutions of the state; not made with a view to increase the efficiency of their management, but for the purpose of controlling the revenues and incidental powers for partisan purposes, thus dragging down to the basest uses the willing gifts of the people."

Scintillations From Gretna.

Affection is akin to disgust.

The towns seemed to have been liquorized last Saturday night.

The contestants in the Lake Shore hugging match were before the Mayor Monday, but were dismissed.

The Misses Pollard and Elyar, of West Union, was the guest of Mrs. Underwood, of Locust street, last week.

Joe Conner, who lives just below town, had the misfortune to lose one of his children by diphtheria on Saturday last.

Charles Gardner, in his trial before the Mayor on Monday, was bound over to court for carrying concealed weapons.

William Smith and P. A. Stewart, both young gentlemen of many good qualities, visited Ruggles Camp Meeting Sunday last.

Martha Sutton and son, Edna, were arrested and taken to Ripley Monday, for striking Charles Gardner while arresting him. Gardner swore out a warrant for them at Ripley with the above result.

Is this a civilized community? That is the question. Our attention has been called to a case of harsh treatment by parents to their children, and if they don't "down breaks," we will make a full expose.

Messrs. Frank and Eck Ellis, accompanied by Miss Maggie Heidle, returned from Ruggles Camp Meeting on Monday, where they had been for a week or two assisting in making music for the religious exercises.

The cars the Pearce Brothers are taking in selecting their wheat is another evidence that they make the best brands of flour. They have now close to 20,000 bushels of selected wheat in the Mammoth True Warehouse.

Rheumatism

Though painful and wearing almost beyond endurance, is not an incurable disease if treated in time. Perhaps no other disease has so baffled the efforts of science and medicine as this, but a new remedy has been discovered in SWISS BISM which CURES RHEUMATISM, and is heartily endorsed by many of the Leading Physicians.

WHAT THEY SAY:
"Tonsalgene is the only medicine I will use."
"I have given Tonsalgene a fair trial, and think it the best remedy I have ever found for Rheumatism."

YOUNG MEN'S FAIR.

Opening Day Finds a Large Crowd in Attendance—Success Assured.

If the opening day can be taken as an indication, the second annual meeting of the Young Men's Fair Company will surpass that of all previous meetings, at this place. The weather in the morning was not at all favorable, but the clouds cleared away, and the afternoon was delightfully cool and pleasant. The attendance was very much larger than that on the first day in former years. The prospects are good for big crowds the rest of the week. The exhibition of all-purpose and draft horses, in the arena, was a fine one. The following premiums were awarded:

Stallion, four years old and over, W. A. Parry, Maysville, \$15.
Stallion, three years old and under, J. C. Cord, Millwood, \$12.
Mare, four years old and over, Logan & Samuels, Poplar Plains, \$15.

The stake race for two-year-olds and the trot in the 235 class were on the programme yesterday. In the first, Ben Hur was a decided favorite with the boys, and had a walk-over. St. Bel, a black stallion owned by Senator Stanford, of Cal., won the purse in the 235 trot in three straight heats. Oriana, owned by Moorehead & Salter, of River, Ga., ran well, but wasn't a match for the California nag. The following is the summary:

NOTES.

Henry Hawkins makes a handsome Marshal.
"Mr. John" Everett was doing society yesterday.

The grounds and buildings are in the best condition.

The Floral Hall is a happy display of art and skilled industry.

Captain Rogers, of Bourbon County, was a looker-on yesterday.

The weather was delightful. An old-time autumnal day, you know.

Lady DeFarnette, the handsomest horse living, will be on exhibition to-day.

Director George W. Rogers is a moving spirit in the Floral Hall department.

Some of the fastest trotters in the world will be seen on the track to day. Come out.

The usual side show is on the grounds. The educated dogs are too cute for anything.

Messrs. Will Samuel and Jesse Logan, of Poplar Plains, have a lot of good horses on the grounds.

Enterprise, as usual, took the ribbon for the best stallion of any age in the all-purpose ring. James W. Fitzgerald is the owner.

Don't forget that the race course is the fastest mile track in the State. Horse-

men appreciate this fact, and you may look for some fast trotting this week.

The music by Hauke's band is a prominent feature. A stranger from London, Ohio, remarked that he thought the music was equal to that of the very best of bands.

The piece of music entitled "The Hunting Scene," rendered by the band, elicited much applause. The vocal part, mingling with the instrumental, produces a charming effect.

Hot coffee, milk, sandwiches, pies, cakes &c. Fine cigars, pure liquor and wines at Shepard's restaurant, opposite the depot. al84t

The Harry Webber Comedry Company should have a crowded house in "Nip and Tuck" to-night. Admission, 25, 35 and 50 cents.

THERE will undoubtedly be an advance in the price of blue ribbon in the next forty-eight hours. Heehinger can explain it all to you. See him.

The great attractions at the Ripley Fair: The grand balloon ascension Wednesday, August 25th, and the preacher of preachers, Sam Small, on Friday of the fair, August 27th.

HECHINGER'S time is about equally divided this week between waiting on his many friends and showing his fine horse. Upon a close tally the horse has a "leete" shade the best of it.

W. J. ROBINSON, the Irish boy preacher only one year from Ireland and but eighteen years of age, will lead the prayer meeting at Third street M. E. Church this evening at fifteen minutes to 8 o'clock.

The camp fire and dance by Joseph Heiser Post, G. A. R., in the yard of the Fifth ward public school was largely attended last night. It will be repeated Friday and Saturday night. Supper will be served, free, Saturday night.

JOS. KENNEDY, of Paris, has sold his celebrated gelding, J. Q., to a Mr. Frances, of New York, for \$7,000 cash. He but recently trotted a heat in 2:17; at Rochester, N. Y. Mr. Kennedy purchased him four years ago for \$124, and has earned by him, clear of expense, \$10,500.

The Kentucky Central will run special train from here to Bethel Camp Meeting next Sunday. Train will leave here at 7 a. m., and will go through without change to Covington, passing the camp grounds at 11:15 a. m. Returning, train will leave camp grounds at 5 p. m. Round trip, \$1.75.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. Its record of forty years is one of constant triumph over disease.

NEXT Sunday, the 22nd, the day appointed for the laying of the corner stone of St. Mary's Church at Manchester, O., the elegant steamer St. Lawrence will leave the Maysville wharf at 9:30 a. m., carrying passengers for 50 cents the round trip, or \$1 for the same, inclusive of dinner. Returning, the boat will leave Manchester at 4 p. m. At the above named prices, and on being introduced by a member of the Total Abstinence Society, tickets may be secured from William A. Cole, Charles Cook, Robert Brown, John Kain, Jr., and O. T. Brown, the committee.

ROBERT O'MAHONEY, Esq., of Lexington, the gifted correspondent of the Cincinnati Enquirer, is here this week "booming" his paper. The Weekly Enquirer is undoubtedly one of the best and most readable papers published. Mr. O'Mahoney can be found at the Secretary's office, fair grounds, to-day, and will be pleased to add your name to the Enquirer's subscription list.

Mrs. JENNIE O. CLARKE is desirous of organizing a class in drawing and painting about the 1st of September. She would like particularly to get a class in sketching from nature. She recently spent several weeks in Virginia with a class who were instructed by Professor Alexander Schilling, of New York, and Miss S. E. Ketchum, of Indianapolis, both fine artists. Miss Clarke can be seen at the residence of her sister, Mrs. James H. Rogers.

CHARLES ROYCE and his brother, Solomon, of Nicholas County, have been held to answer the charge of confederating conspiring and murdering Henry Tanner, a negro, near Carlisle on the 3rd. of this month. The former's bond was fixed at \$2,000 and the latter's at \$500. The two are in jail in default of bail. Public sentiment is said to be strong against the two. A charge of forgery has been preferred against Charles Royce by the St. Louis Wrought Iron Range Company of which he has been agent for some time.

The Uniform Rank, Maysville Division No. 6, K. of P., will give midsummer entertainments at the grounds of the Fifth ward public school on the evenings of August 30, 31 and September 1. It is proposed by the gentlemen composing the division to make these entertainments worthy of the grand order they represent, and nothing will be allowed to take place which will offend the taste or feelings of their guests. It has been rumored that the sale of beer will be allowed, and in view of this report, representatives of the division have called upon us to say that the report is entirely without foundation, and according to the tenets of their order such a proceeding could not take place under any state of circumstances.

Assembly Hop.

Another assembly hop was given last night and is now numbered among the numerous successes of the past. The change of rooms from the Riverside to Neptune Hall was, if anything, an improvement and a better accommodation for display of the fine toilets of the ladies. New costumes and new faces were to be seen by the score, and our reason for not individualizing is that space is lacking to give justice to the beauty and brilliancy of each. The hop will be repeated on Friday evening, when another brilliant assemblage may be expected.

NOT SO VERY IMPORTANT.

THE SENDING OF GENERAL SEDGWICK TO MEXICO.

A High official in Washington Claims That the Mission of George H. Bates to the Samoan Islands is of Much More Importance Than the One to Mexico. WASHINGTON, Aug. 19.—An official, high in authority here, expressed surprise at the large amount of talk in regard to the sending of Gen. Sedgwick on a special mission to Mexico. He said: "This is not by any means the first time the secretary has done the same thing. There is now a gentleman on a more important mission of the same kind, and yet I have seen nothing, or next to nothing about it. I refer to the sending of George H. Bates, to Wilmington, Del., to Apia, on the Samoan Islands."

A few months ago there was serious trouble threatened at this point. Two native kings were at war. Bismarck, in carrying out his policy of acquiring territory, was thought to be laying plans through his representatives here for taking the islands under the protection of the German flag. The British consul there was somewhat suspicious, and knew that his government was desirous of taking charge of the whole kingdom. But at that point a new man, Berthold Greenbaum, a former clothing dealer in San Francisco, was sent there.

When Mr. Greenbaum was sent there it was thought to be the last spot in the world where anything great or small was likely to happen. The salary of the place is only \$1,500 a year and it hardly seemed likely that a skillful diplomat could be secured to take the place at that salary. When the trouble arose Greenbaum was at sea. He flourished the flag a good deal and talked a good deal that was all.

Secretary Bayard conceived the idea of sending some one to Samoa, and suggested to Germany and England that they do the same. He set forth his dispatches to these countries that none of them need be bound by the action of these special messengers, but that they could all have in this way full and accurate knowledge of the situation there. Mr. Bates has been gone for some time, and is probably now in Apia. He is an able man and has the advantage of knowing just what the secretary wants done. He will gather all the information in each case, and come back with points that it would be next to impossible to obtain by correspondence. So was it in the case of Consul Brigham. No one expected Paso Del Norte to become an important point, and as soon as it does become so it is necessary to have some one go there from the secretary.

Mexican Troops on the Border.

EL PASO, TEX., Aug. 19.—In addition to the 500 Mexican soldiers who arrived at Chihuahua Sunday night, 175 came Monday night, and 320 more are expected to-day. A troop of artillery is on the way. There are now over 500 troops in Chihuahua, and several hundred more in Paso Del Norte.

THE WISCONSIN FIRES.

Extent of the Territory Traversed and an Estimate of the Damage Done.

MILWAUKEE, Aug. 19.—So wide is the territory traversed by the forest fires in Northern and Middle Wisconsin and so meager the information as to the actual extent of the damage that the losses can only be roughly approximated. The greatest damage was to standing timber, which is the source of wealth in this district. Portage, Marathon, Clark, Chippewa, Door and Calumet counties suffered most severely. The drought has been so severe that the land has withered and fallen weeks before their time, swamps and marshes have dried up, creeks have disappeared and streams have dwindled to insignificant rivulets. Every thing, therefore, burned like tinder, with no barrier to impede progress. Hundreds of thousands of acres of spruce, fir, hemlock and second growth of pine was growing have been burned over.

From the best information obtainable it is estimated that fifty square miles were consumed along the line of the Wisconsin Central railroad; hundreds of cords of piled wood, ties, etc., are in ashes. The number of homestead families is estimated at seven hundred, representing 3,000 people. Their individual losses are comparatively light, but in the aggregate will reach over \$1,000,000, mostly uninsured. The cranberry marshes destroyed were among the largest in the country. As several years will be required to replace the bushes the loss is severe. It is estimated at \$300,000. Cattle and horses perished by the hundred. Many were suffocated or died from inability to obtain water. Hundreds of acres of grain and thousands of tons of hay were consumed.

A LOCKLAND MURDER.

Death in the Cincinnati Infirmary the Result of Carelessness.

CINCINNATI, Aug. 19.—Lockland, O., was the scene of a sad and senseless murder, which last night culminated in murder by the death of the unfortunate victim, George White and W. Mordecai, two colored laborers, boarding at Mrs. Brown's saloon and boarding house in West Lockland, began skydiving with each other after dinner. White stopped at the saloon for a cigar, and taking therefrom a 25-cent silver revolver, leveled it at Mordecai and fired. Mordecai clasped both hands to his stomach, uttered a piteous cry, "My God, I'm killed!" and sank to the floor with a bullet in his abdomen.

On perceiving what he had done, White dropped the weapon and hung his hands in agony, declaring that he did not know the revolver was loaded. He was arrested and held to await the result of Mordecai's injury. The wounded man was taken to the city infirmary, and everything that medical skill could suggest was done to save him, but after lingering until last night in great pain he died. He is now in jail. From the statements of some eye-witnesses there was no hard feeling between the two men; the shooting was wholly unintentional, and the result of inexcusable carelessness on the part of White, while others insist that there were hard feelings between the men. The body of the murdered man is at the city infirmary awaiting the arrival of the coroner.

Arrests for Burglary.

WASHINGTON, C. H., O., Aug. 19.—Deputy Marshall McLeary and William Greenfield, of Greenfield, and John Crowley, of Columbus, who has just served a term in the penitentiary, charged with grand larceny. It is alleged that these three men recently burglarized McCann's saloon at Greenfield, and got away with considerable money, chairs, etc. They were taken to the city court, being charged by Marshall Powell, of Greenfield.

TERRIFIC STORM.

A Wife and Four Children Drowned by the Sudden Rising of a Stream.

WHEELING, W. VA., Aug. 19.—The most terrific storm ever known in this portion of Marion county, along the Baltimore and Ohio railroad occurred here. The rain fell in torrents, and little streams were swollen in an incredible short time to floods. Dunkard Mill, near the town of Farmington, on a rivulet which a man can easily step across at an ordinary stage, rose in less than an hour until it swept through the valley, carrying away the houses, and even houses before it. At Harpersville several buildings were destroyed.

John Soderly, who with his wife and four children, lived on Dunkard Mill Run, not far from its confluence with Buffalo creek, awoke in the night to find his house surrounded by water. The lights were going in at every door and window. He made his way out to procure assistance but before he returned his wife and four children were drowned, and two of the children's bodies were washed away. When the three bodies were recovered after the water fell and the two missing children were found floating in the Monongahela river several miles from the scene of the disaster.

Railroad traffic was considerably impeded by the storm and the crops in large sections were entirely ruined.

THE FISHERY MUDDLE.

Deputy Minister Tilton Interviewed on the Subject.

HALIFAX, N. S., Aug. 19.—The Herald publishes an important interview with Deputy Minister Tilton, the main points of which are that there has been very little fishing by Americans inside the three mile limit, the American contention being thus supported by Canadian officials, and that he believes the United States government will very soon propose a commission to permanently settle the fishery and other questions but in case the American government makes no move in this direction, the Canadian fleet will move on and it is generally understood here, aided by imperial gunboats.

He denies the stories of the American fleet doing a fishing job in the waters of Edward Island waters, and says they were outside the three mile limit. This is very important in the light of the alleged arrangement between the commanders of the Canadian and American cruisers must have been made with the approval of their respective governments, and if so it looks as though the Americans had surrendered their position of the head land question.
